

STAND-MOUNT LOUDSPEAKER OF THE YEAR,  
UP TO £10,000

Triangle Borea BR03

Costing just £399 the Borea BR03s are a front-ported, two-way design and are the largest product in the Borea range. Weighing 7kg/each, they stand 38cm tall and feature a 25mm EFS silk dome tweeter sat above a 16cm cellulose paper midrange/bass driver. They benefit from trickle-down technology of the more expensive Esprit Ez Series.

Triangle quotes a frequency response of 46Hz to 22kHz (+/- 3dB) which is impressive even by 'chunky stand-mounter' standards, 100W power handling and an 8 ohm nominal impedance.

In our test, Simon Lucas highlighted, "Unlike quite a few price-comparable rivals, the BR03s don't confuse excitement with shouting...their emphasis on drive, vigour, punch and all aspects of music-making can turn every tune into a party-starter."

He concluded, "their enthusiasm, verve and straightforward musicality makes them an intriguing choice. And, as is obvious by now, any shortfall in perceived quality is more than made up for in straightforward quantity." +
